PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3 years of experience building AI-powered products and distributed systems using Java, Spring Boot, and React. Experienced in designing microservices, integrating LLMs and RAG pipelines, and shipping features end-to-end with CI/CD and Docker. Delivered production systems serving 10,000+ users.

WORK EXPERIENCE

Wasserstoff RJ Innovations Private Limited
Software Engineer

Jan 2025 – Present
Gurugram, Haryana

- Shipped **ChaturAI**, an AI-powered recruitment SaaS with **10,000+ registered users**; designed **RBAC** with **Spring Security** and **JWT**, built async resume parsing pipeline processing **200+ resumes/day** using **multithreading**, **Kafka**, and owned end-to-end **CI/CD** with **Jenkins** and **Docker**.
- Engineered **LitLaw**, a Git-inspired legal document platform with **CAS-based version control** (SHA-512 content hashing), real-time collaborative editing via **Spring WebSocket**, automated **PDF/DOCX** export pipeline, and multi-cloud storage using **AWS S3** and **Azure Blob Storage** with **Redis**-backed async job queuing.
- Built **LitReg**, a regulatory intelligence platform for **SEBI/RBI** regulators; implemented hierarchical document management with **RBAC** access control, **SSO** authentication, and a **Spring AI**-powered **RAG** ingestion pipeline for intelligent document querying, backed by **PostgreSQL** and **Azure Blob Storage**.

Rooba Finance Private Limited
Full Stack Engineer

Jun 2023 – Jan 2025
Gurugram, Haryana

- Delivered full-stack token compliance platform on **Polygon blockchain** using **Spring Boot** and **React**, enabling regulated on-chain token transfers and compliance verification; adopted by **enterprise clients** in production.
- Integrated **Idefy KYC** verification (PAN, Aadhaar, face match) into the user onboarding flow, automating identity checks for **500+ users** and eliminating manual document review.
- Automated **MCA**-based corporate verification via **Idefy API**, enabling instant business identity validation and reducing enterprise compliance verification effort by **~70%**.

PROJECTS

E-Commerce Microservices Platform | [GitHub](#) | [YouTube Project Demo](#)

- Built **8 independent microservices** (User, Product, Order, Notification) using **Spring Boot** and **Spring Cloud** with Config Server, Eureka service discovery, **API Gateway**, and **Keycloak OAuth2** for centralized auth.
- Architected async event-driven order notifications using **RabbitMQ** via Spring Cloud Stream; integrated **Resilience4j** circuit breakers, **Zipkin** distributed tracing, **Prometheus**, Grafana, and Loki for full-stack observability.
- Containerized the full platform using **Docker Compose**, orchestrating **15+ containers** including databases, message broker, object storage, and observability stack for single-command local deployment.

AI Helpdesk Backend | [GitHub](#) | [YouTube Project Demo](#)

- Developed AI-powered helpdesk using **Spring AI** with **RAG pipeline** — ingested FAQ knowledge base into **pgvector**, performing cosine similarity search to ground **LLM** responses and eliminate hallucinations.
- Engineered **Spring AI** function/tool calling (ticket CRUD, Gmail SMTP) and JDBC-backed persistent conversation memory; integrated **Ollama (llama3.2)** for local inference and **Google Gemini** as cloud fallback, deployed with Docker.

SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL

Frameworks: Spring Boot, Spring Framework, Spring Cloud, Spring Security, Spring AI, Hibernate, React, Next.js

Databases: PostgreSQL, MongoDB, Redis, pgvector

Cloud & DevOps: AWS (EC2, S3, ECR, SQS), Kubernetes (basic), Docker, Jenkins, CI/CD

Tools: IntelliJ IDEA, VS Code, Git, GitHub, Postman, Maven, Swagger/OpenAPI, JUnit, Mockito, Keycloak

Technical Concepts: Microservices, REST APIs, GraphQL (basic), gRPC (basic), Kafka, Generative AI, RAG, LLM, MCP, OCR, Multithreading, Java Streams, System Design, Distributed Systems, Agile, Scrum, Data Structures & Algorithms

EDUCATION

HMR Institute of Technology and Management
Bachelor of Technology in Mechanical and Automation Engineering

2018 – 2022
CGPA: 8.8/10.0

Nav Jeewan Academy Sr. Sec. School
Class XII, PCM (Physics, Chemistry, Mathematics)

2017 – 2018
88%, New Delhi
